

Community Planning Forum

STONINGTON
Department of Planning

SUSTAINABILITY

DATE: **Wednesday April 19, 2006**
LOCATION: **Pine Point School Library/Technology Center**
89 Barnes Road, Stonington, Connecticut 06378
TIME: **7:00 p.m.**

Featured speaker: D. Stubby Warmbold **founder of CitiLog (Pittstown, N.J.)**

Citilog uses a combination of salvaging/urban logging, horse logging methods, and Forest Stewardship Council chain-of-custody wood to produce custom millwork. Warmbold was inspired to start his company after witnessing a 100-year-old oak tree, blown over in a storm, being cut into firewood. Along with their approach to protect the environment, CitiLog also supports skilled artisans and small-scale production in local communities.

The mission of CITILOG™ is to reduce tree waste by encouraging consumers to use good wood.

*"Our company
helps protect the
environment and
keeps usable
material out of the
waste stream."*

Maria and Stubby Warmbold.
