Please note that any mooring assigned in Stonington water must be within the designated mooring areas specified in the Mystic Harbor Management Plan. There is presently a moratorium on new assignments in Area H. If you have documented, deeded access to the river/waterfront, please make me aware of same on your application.

The Management Plan document is available as a pdf file on the town web site and provides a wealth of information relative to mooring guidelines. It is currently undergoing major revisions and a new version will be available in the upcoming months.
