## Memorandum

To: All entities who submitted proposals for the Ground Mounted Solar PV Energy System  
From: James Sullivan, CPA; Director of Finance  
Date: 05/22/15  
Re: Disposition of Ground Mounted Solar PV Energy System

---

After receiving and reviewing the five proposals submitted in response to the Town's RFP for a Ground Mounted Solar PV Energy System, to be installed upon the Town's landfill, the review committee recommended to the Board of Selectmen that the project not be undertaken at this point and time. Due to time constraints, the Virtual Net Metering Credit cap, unknown impact of interconnection costs, and risk to realizing any significant benefit from the project, the committee recommended against proceeding with the project.

The Town and Board of Selectmen would like to thank those entities who submitted proposals and for their efforts in response to this RFP. The five proposers, in no particular order, were as follows:

- 1) SolarCity
- 2) American Capital Energy
- 3) PVNavigator, LLC
- 4) Altus
- 5) SunEdison
