

Town of Stonington Leaf Collection Program

Each fall, the Town receives many inquiries from residents regarding the leaf collection program. The following information may be useful in understanding the Leaf Collection Program.

Curbside Leaf Vacuum Collection

Leaf Collection Areas and Schedule

- Pawcatuck Areas: November 2rd through November 20th
- Mystic and Stonington Areas: November 16th through December 4th.
- There will be no leaf pickup available after December 4, 2015. However, the Town leaf collection will continue at our storm drain inlets through December.

Guidelines

- Rake leaves to the front of your property at the edge of the street and/or curblin. Do not block sidewalks, walkways, gates or blow leaves into the street.
- Do not block leaves with parked cars. Crews will not return to any properties blocked by cars.
- Please keep any storm drains free of leaves and other debris year round. Help keep our water clean.
- Help us by keeping leaf piles free of brush, refuse, rocks and other foreign matter.
- Do not allow children to play in leaf piles along the curblin.
- Collection is subject to change due to weather or unforeseen circumstances.
- Residents are reminded that once vacuum collection has been completed on your street, leaf disposal must be dropped off at the Stonington Transfer Station on Greenhaven Road.
- As part of the Town's continuing effort to improve efficiency, the Town will not make individual spot pickups of leaves.

Stonington Transfer Station Drop Off

In addition to curbside vacuum collection, residents may drop off loose or paper bagged leaves at the Stonington Transfer Station composting area year-round free of charge. The Stonington Transfer Station is located at 151 Greenhaven Road, Pawcatuck, CT.

The Success of the Leaf Collection program is dependent upon the weather and volume of leaves; because of this we cannot determine when the crew will be at a specific location. Your understanding and cooperation is greatly appreciated.
