ZBA #15-09 Brendan and Amanda Murphy – Seeking a variance from ZR 5.1.1 bulk requirements to increase the FAR from 25% to 27% for the construction of a shed. Property located at 67 Moss St. Pawcatuck, CT; Assessor's Map 4 Block 24 Lot 3; Zone RH-10.

Ms. Palmer presented the application, the applicant is requesting an additional 203SF above the required square footage. Their undersized lot prevents them from being able to construct the shed without a variance.

Brendan Murphy, presented the application. Mr. Murphy stated that they do not have any outdoor storage space, and having a corner lot has been difficult. The surrounding neighbors have submitted letters of support. The lot is undersized compared to the zone, their lot is 9,180SF compared to the zone which is 10,000. If their lot was that size they would not need a variance.

Ms. Conway questioned whether it will be one story the applicant agreed it was one story. Mr. Lyman questioned whether they are considering a garage. The applicant responded that they will only be constructing a shed matching to the style of the home. Mr. Lyman questioned the square footage calculation, Ms. Palmer assured that it is accurate.
