

TOWN OF STONINGTON WATER POLLUTION CONTROL AUTHORITY

NOTICE OF SEWER USE CHARGE

Notice is hereby given that subsequent to the Public Hearing held as prescribed by law, the Water Pollution Control Authority of the Town of Stonington, at a meeting held on the 28th day of March 2023 voted as follows:

To establish the following sewer charges to apply to owners of all properties connected to Town sewers:

Effective June 1, 2023, the amount of the approved sewer use charge shall be \$7.06 (seven dollars and six cents) times the number of 100 cubic feet of water metered to each property as determined by meter readings of the Aquarion Water Company or the Town of Westerly Water Division or, in the instance of a private water supply, meters provided specifically for the purpose of measuring water use.

Sewer use shall be invoiced and payable at six-month intervals. So as to adjust for water used prior to and subsequent to the June 1, 2023, change of rate, the following interim charges are as follows:

<u>Billing area</u>	<u>Water use period</u>	<u>Rate</u>
Mystic	February 1, 2023 – July 31, 2023	\$ 6.62 per 100 cubic feet
Pawcatuck	April 1, 2023 – September 30, 2023	\$ 6.84 per 100 cubic feet
Stonington	June 1, 2023 – November 30, 2023	\$ 7.06 per 100 cubic feet

For each succeeding six-month period the charge shall be \$ 7.06 per 100 cubic feet until revised.

The use charge shall apply to all connected properties without exception including municipally owned and all other tax-exempt properties. The charge for properties not connected for an entire billing period shall be adjusted proportionately to the number of days within the period that the property was connected.

The minimum charge shall be \$55.21 per six-month period.

Charge for residences with private non-metered water supplies:

Single family	\$ 187.74 per six-month period
Multiple family	\$ 281.59 per six-month period

Non-residential users having a private water supply shall install a suitable water meter.

The Water Pollution Control Authority will adjust its charges according to measured water that is not returned to the sewer. In order to be eligible for an adjustment, property owners must make proper application and install at their expense a metering system acceptable to and specifically approved by the Authority that distinguishes between water returned to the Town sewer and water otherwise used.

The owner of the property against which the use charge is levied shall be liable for payment. Invoices for payment will be mailed to the owner at six (6) month intervals and are payable within thirty (30) days of the mailing. After thirty (30) days, interest as prescribed by statute will be added to the unpaid balance until payment.

The foregoing was filed in the office of the Town Clerk on March 29th, 2023. Any appeals to these charges must be filed within twenty-one (21) days of such filing as prescribed by law.

Any person aggrieved by these charges may appeal as provided by Statute.

Dated at Stonington, Connecticut this 29th day of March 2023.

STONINGTON WATER POLLUTION CONTROL AUTHORITY
